Sensory Narratives For Lasting Legacies

Memorable experiences engage the senses.Envelop everyday with sensational spaces that Formica laminates create.

Formica innovates game-changing standards of decorative sheets.

There are real sustainability needs to be met and Formica has these covered.

Get more done with less.

Environmental Front

Formica is a part of Broadview Materials and committed to a shared mission: making real impact with less impact.

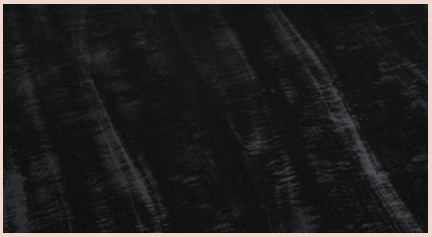

Taking the long view in order to meet the needs of today without compromising the ability of future generations to meet their own needs. Innovation underscores this commitment.

With a reduction in material use, our laminates now consume fewer resources, generate less waste, and lower carbon emissions, all whilst maintaining the same trusted performance and aesthetic.

You can do more with less and Formica makes that possible. Meeting environmental and social needs of today in every layout while including all the elements we want in the modern spaces of today.

Formica Laminate is available in a standard size of 4' x 8' with a thickness range of 0.7 mm to 1.0 mm. Custom sizes are available upon request.

Undulating Surfaces

Incorporate the ebb and flow of real life with the Formica range of deeply textured laminates. Every space and environment can be an outstanding experience with detailing you can see and feel.

Bring the senses to the fore with wood and stone finishes in pearlescent and solid colour. The matching dark core creates seamless edges for cabinetry and furniture with a luxurious, modern edge.

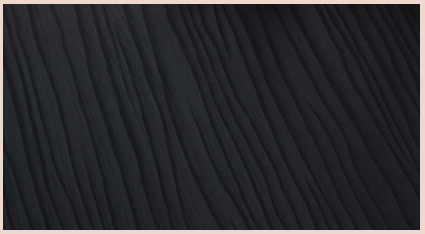

These are more than finishes; they are stories told through texture. Memories evoked by touch. Emotions etched into every detail.

Add richness and refined luxury to work spaces and meeting areas to concentrate the mind on important tasks.

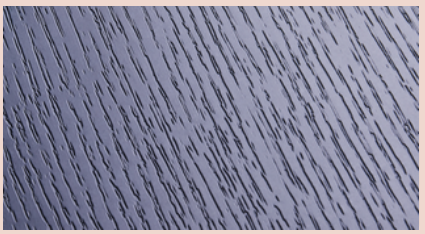

Deeply enhance the living spaces that envelop our private moments with elegance and sophisticated style.

Formica Laminate designed for undulating surfaces is available in a standard size of 4' x 8' with a thickness of 0.8 mm. Custom sizes are available upon request.

Formica Cora

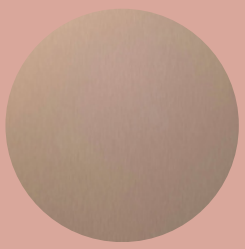

Designed to eliminate undesirable joint lines with five inner core colours, Formica Cora is a matched-core high pressure laminate. We are changing how people see laminates for good. More than a product update; this is a new standard for laminates and Formica is leading the way.

Matched Core

Formica Cora
Seamless from edge to edge

This is beauty, uninterrupted

Ideal for cabinets and shelving and other right-angle constructions. The antimicrobial properties suppress odour and mildew. Silver-ion technology reduces microbes on the surface, making it the smart choice for kitchens, bathrooms, schools, and healthcare environments.

From the inside out, Formica Cora accents stylish spaces.

WOOD
GRAIN

Undulating Surfaces
Wood Grains - Lumber Wood (LB) Texture

Woods in LB texture reimagines wood through a refined linear flow and a deeper, more tactile surface expression. Its grain is thoughtfully redesigned to blend modern aesthetics with organic warmth, delivering a quietly sophisticated look enriched by dimensionality. This deeper texture enhances authenticity and sensory appeal, making it perfectly suited for interiors that celebrate simplicity, elevated by thoughtful touch and intricate detail.

Undulating Surfaces
Wood Grains - Kleber Line (KL) and Duo Wood (DW) Textures

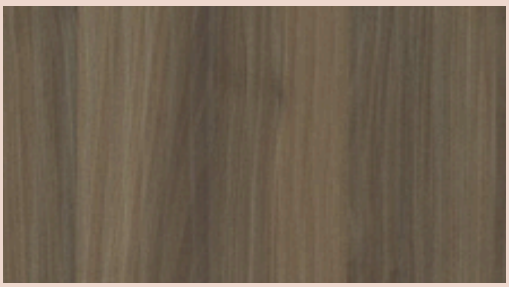

Woods in KL and DW textures reimagine natural timber with refined linearity, merging organic grain and modern design. KL introduces subtle geometric lines, adding structure and elegance to the wood's movement. DW enhances this with a dual - gloss effect, creating depth and soft light play. Together, they deliver a contemporary aesthetic – clean, sophisticated, and dynamic — ideal for interiors balancing nature and modernity.

Undulating Surfaces
Wood Grains - Organic Wood (OG) Texture

Woods in OG texture celebrates the raw beauty of natural timber, faithfully replicating its authentic character. Drawing inspiration from the intricate textures of wood bark, the OG finish combines a velvety touch with pronounced open pores — delivering depth, warmth, and an unmistakably lifelike tactile experience.

Undulating Surfaces
Wood Grains - Carved Art (CA) Texture

Woods in CA texture celebrates the renewed desire for a closer connection with nature in everyday living. Inspired by traditional hand-carving techniques, the CA finish introduces a crafted, tactile dimension that elevates the natural beauty of mid- to dark-toned wood grains. With its partial crown - cut pattern, it reveals refined, organic movement - offering depth, warmth, and an artisanal touch.

Undulating Surfaces
Stones - Carved Art (CA) and Kleber Line (KL) Textures

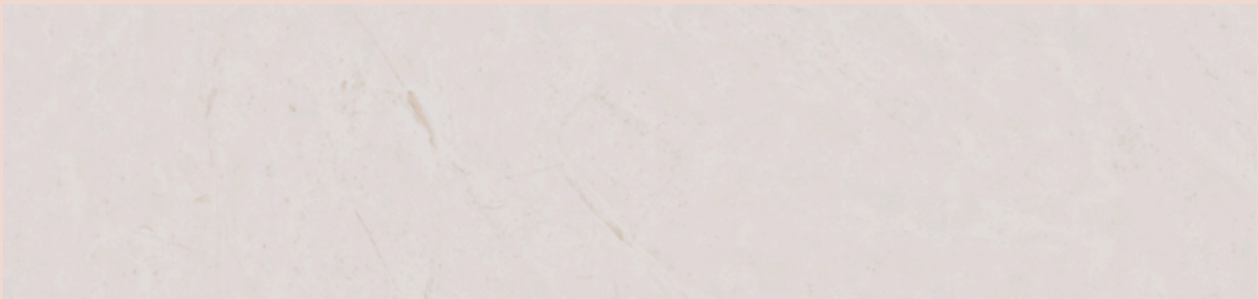

Stones in Carved Art (CA) and Kleber Line (KL) textures present two distinct interpretations of natural stone, each with unique character. Travertine in Carved Art (CA) exudes a warm, artisanal charm — its natural layers enriched by the hand-carved tactility of the CA finish, lending depth and organic expression. In contrast, off-white stone in Kleber Line (KL) embraces modern minimalism. The KL finish adds subtle linear structure, transforming the stone's neutral calm into a contemporary, architecturally rhythmic statement.

Undulating Surfaces
Stones - Pietra (PT) Texture

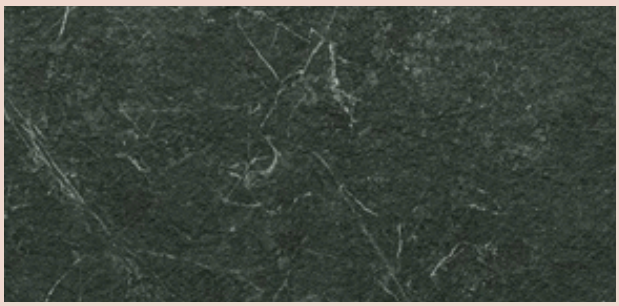

Stones in Pietra (PT) texture embody the quiet elegance of naturally inspired surfaces, evoking limestone, plaster, and raw earth. These stones deliver a soft, organic aesthetic, infusing interiors with warmth and tranquility. The Pietra (PT) texture amplifies this natural character — subtle visually yet richly tactile — creating an authentic stone feel. The result is a refined, grounded look, ideal for minimalist, earthy, or contemporary spaces seeking understated sophistication.

Pearlescent - Phoebe Remix (PH) Texture

Pearlescent in PH texture captures a soft, iridescent glow that moves gently across the surface, creating a natural, dappled play of light. This subtle yet expressive finish evokes the shimmer of fine metallic fabrics. With shifting highlights that add depth and quiet sophistication, PH texture offers a refined, light-responsive surface ideal for interiors seeking a delicate, light-responsive elegance.

Undulating Surfaces
Solid Colours - Duo Wood (DW) Texture

Solids in DW texture transform flat surfaces with depth and movement. The dual - gloss effect gently interacts with light, producing a refined interplay of matte and gloss that adds dimension without pattern. This elevates solid colours, making them feel richer, more architectural, and premium. The result is a sophisticated, textured finish that retains a clean, modern aesthetic — ideal for spaces seeking subtle elegance and visual intrigue.

WE MAKE IT WRITABLE, YOU MAKE IT MEMORABLE

This durable, high gloss, non-magnetic dry-erase surface cleans up instantly, making it ideal for homes, offices, classrooms, and other work environments.

Custom Graphics

DIGITAL PRINT
Customer-supplied images are printed directly onto plain paper for the production of high-pressure laminate (HPL).

TECHNICAL SPECIFICATIONS

Laminate Size	:	1220 mm (W) × 2440 mm (H) and 1220 mm (W) × 3050 mm (H) Includes a 50 mm border on each side in black core. For images spanning multiple laminate sizes, allow an additional 20 mm bleed for overlap.
Actual Image Size	:	Ready-to-print size should match the panel dimensions: 1200 mm × 2400 mm.
Finish	:	Matte or Gloss.
Postforming	:	Not supported.
Thickness	:	1.0-12 mm. (Compact Grade for 2mm or thicker)

DIGITAL FILE REQUIREMENTS

- Minimum resolution: 300 dpi or higher.
- Image size prepared for printing on 1200 x 2400mm panel.
- Provide a colour printout of the file for reference.
- Include Pantone number or equivalent colour codes if applicable.
- Recommended software: Adobe Illustrator or Adobe Photoshop.

High Pressure Laminate
(for bonding to a substrate)

Compact Structural Laminate
(double sided decor)

Compact Structural Laminate
(single sided decor)
* Only up to 2.5mm thickness

* Outdoor application is not recommended; may be used only under shelter and away from direct sunlight

HOMAPAL presents

DECO METAL

ESSENTIALS

DecoMetal Essentials brings together a collection of timeless brushed metal laminates.

Designed for everyday refinement, this Essentials range offers the look of real metal in a material choice that keeps design decisions simple, flexible, and accessible. Whether used as subtle accents or bold statements, these essential brushed finishes deliver a modern, elevated touch to interior spaces.

Copper's natural properties may cause colour variations between samples and actual products. Please consult Formica sales representatives before purchase. Homapal colours in samples and printed materials may differ from actual products due to production tolerances, batch variations, and viewing angles. Metallic surfaces may appear to change colour depending on perspective. For assistance, please contact Formica sales representatives.

Writable Magnetic

FENIX
Innovative Materials for Interior Design

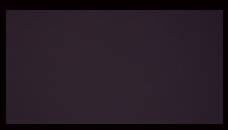

FENIX® is a cutting-edge material developed by Arpa Industriale for modern interior design. Using proprietary technology, the surface of FENIX® is crafted from next-generation acrylic resins, hardened and stabilized through an advanced Electron Beam Curing process.

With its low light reflectivity, FENIX® offers an extremely matt finish, a soft-touch feel, and anti-fingerprint properties. It also features thermal healing capabilities for superficial micro- scratches.

Ideal for both vertical and horizontal surfaces in kitchens, bathroom vanities, furniture, retail spaces and commercial offices.

FENIX NTM® BLOOM

Made of more natural raw materials, FENIX NTM Bloom technology significantly reduces 50% of the phenol in the core's resin thanks to the use of lignin, a renewable natural material. FENIX NTM Bloom is only available in 3050 x 1300mm.

About the Group

We are part of the leading global group in surface materials. We are FENIX, Formica, Homapal, Arpa, Westag, Trespa, Hartson-Kennedy and Direct Online Services. All active in material technology.

Panels, doors, worktops: our products range from HPL to solid surface, and from decorative metals to FENIX. Our 6,000 employees work in 40 countries around the world and our products are marketed in many more.

About Formica®

Feel in Every Detail

We design spaces where life unfolds — places to live, work, and play — while shaping a warm future and home for all aspirations.

We take extraordinary care with the spaces you create because we want every detail to touch the heart.

Formica Founding

Formica® was founded in Cincinnati in 1913 Herbert A. Faber and Daniel J. O' Conor. A world leader in high pressure laminate innovation and always associated with decorative surface by architects, designers and consumers.

Our many years of expert experience combined with our commitment to innovation position us to develop products that meet the needs and current market expectations.

Formica's Services

Formica offers a complete range of surface decorative products with Protec+ technology (High Pressure Laminate,Formica Compact, Formica Cora, Formica Custom Graphics and FRguard+), premium decorative products (Homapal and FENIX) and a range of functional products (CHguard).
All Formica High Pressure Laminates conform to European BS EN438 standards.
Formica has attained ISO certification 9001: 2015, ISO 14001: 2015, ISO 45001:2018, and GREENGUARD.

Formica owns manufacturing bases worldwide, with five located in Asia. Major bases are located in Shanghai (China), Jiujiang (China), Hsinchu (Taiwan), Bangkok (Thailand) and Ahmedabad (India).

Formica's Logo History

1920s 1930s 1940s 1950s 1960s 1970s 1990s - present

Materialising Sustainability

As part of Broadview Materials Group, we share a common sustainability approach, with a key focus on reducing our carbon footprint. As a global leader in surface materials, we view sustainability not only as a responsibility, but also as an opportunity to innovate and grow.

It means putting into action investments to minimise the environmental impact in all of the operations and products and, consequently, reduce our footprint. This long-term strategy consists of two main pillars: the replacement of the most impactful inputs and the improvement of the efficiency of materials and processes. this commitment is captured in our Group's sustainability mission: Making Real Impact for Less Impact.

GREENGUARD Certification

Formica Group has taken significant steps to ensure that its products promote a healthy indoor air quality in homes, offices, schools and other indoor environments. According to the US Environmental Protection Agency (USEPA), the most effective way to reduce indoor air pollution is to reduce or eliminate harmful chemical emissions.

Formica® takes pride in meeting the strict emissions limits of the GREENGUARD Environmental Institute and in achieving GREENGUARD Certification for Indoor Air Quality for Formica® Laminates. Formica® Laminates, Compact® and Homapal® are certified in Asia according to the GREENGUARD Certification and GREENGUARD Gold Certification standards for Indoor Air Quality. Formica® FRguard®+ is certified with GREENGUARD Certification for Indoor Air Quality.

Singapore Green Label

Formica® Laminates are Singapore Green Label certified by the Singapore Environment Council under "Environmentally Preferred Surface Covering".
