Sensory Narratives For Lasting Legacies

**Memorable experiences engage the senses.
Envelop everyday with sensational spaces that
Formica laminates create.**

**Formica innovates game-changing standards of
decorative sheets.**

**There are real sustainability needs to be met and
Formica has these covered.**

Get more done with less.

Environmental Front

Formica is a part of Broadview Materials and committed to a shared mission: making real impact with less impact.

Taking the long view in order to meet the needs of today without compromising the ability of future generations to meet their own needs. Innovation underscores this commitment.

With a reduction in material use, our laminates now consume fewer resources, generate less waste, and lower carbon emissions, all whilst maintaining the same trusted performance and aesthetic

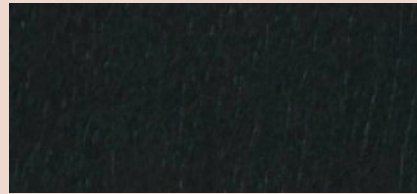

You can do more with less and Formica makes that possible. Meeting environmental and social needs of today in every layout while including all the elements we want in the modern spaces of today.

Formica Laminate is available in a standard size of 4' x 8' with a thickness range of 0.7 mm to 1.0 mm. Custom sizes are available upon request.

Undulating Surfaces

Incorporate the ebb and flow of real life with the Formica range of deeply textured laminates. Every space and environment can be an outstanding experience with detailing you can see and feel.

Bring the senses to the fore with wood and stone finishes in pearlescent and solid colour. The matching dark core creates seamless edges for cabinetry and furniture with a luxurious, modern edge.

These are more than finishes; they are stories told through texture. Memories evoked by touch. Emotions etched into every detail.

Add richness and refined luxury to work spaces and meeting areas to concentrate the mind on important tasks.

Deeply enhance the living spaces that envelop our private moments with elegance and sophisticated style.

Formica Laminate designed for undulating surfaces is available in a standard size of 4' x 8' with a thickness of 0.8 mm. Custom sizes are available upon request.

Formica Cora

Designed to eliminate undesirable joint lines with five inner core colours, Formica Cora is a matched-core high pressure laminate. We are changing how people see laminates for good. More than a product update; this is a new standard for laminates and Formica is leading the way.

Matched Core

These are the backs of various laminates shown with five different inner core colours.

Back of Light Grey Core

Standard Laminate
Dark joint lines at edges

Formica Cora
Seamless from edge to edge

This is beauty, uninterrupted

Ideal for cabinets and shelving and other right-angle constructions. The antimicrobial properties suppress odour and mildew. Silver-ion technology reduces microbes on the surface, making it the smart choice for kitchens, bathrooms, schools, and healthcare environments.

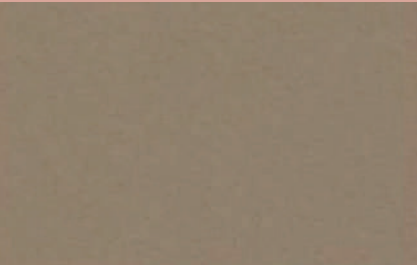

From the inside out, Formica Cora accents stylish spaces.

WORLD
GOALS

Undulating Surfaces

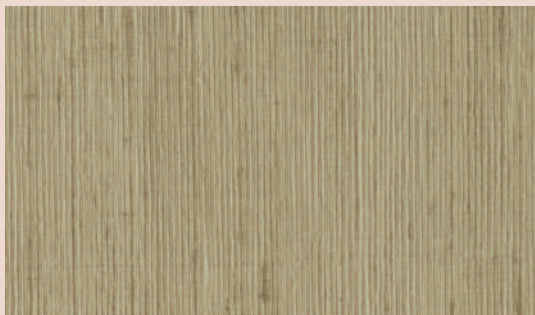

Wood Grains - Lumber Wood (LB) Texture

Scan to
View Full
Sheets

Woods in LB texture reimagines wood through a refined linear flow and a deeper, more tactile surface expression. Its grain is thoughtfully redesigned to blend modern aesthetics with organic warmth, delivering a quietly sophisticated look enriched by dimensionality. This deeper texture enhances authenticity and sensory appeal, making it perfectly suited for interiors that celebrate simplicity, elevated by thoughtful touch and intricate detail.

WOODGRAIN 1

Undulating Surfaces

Wood Grains - Kleber Line (KL) and Duo Wood (DW) Textures

Scan to
View Full
Sheets

Woods in KL and DW textures reimagine natural timber with refined linearity, merging organic grain and modern design. KL introduces subtle geometric lines, adding structure and elegance to the wood's movement. DW enhances this with a dual - gloss effect, creating depth and soft light play. Together, they deliver a contemporary aesthetic – clean, sophisticated, and dynamic — ideal for interiors balancing nature and modernity.

Wood Grains - Organic Wood (OG) Texture

Scan to
View Full
Sheets

Woods in OG texture celebrates the raw beauty of natural timber, faithfully replicating its authentic character. Drawing inspiration from the intricate textures of wood bark, the OG finish combines a velvety touch with pronounced open pores — delivering depth, warmth, and an unmistakably lifelike tactile experience.

Wood Grains - Carved Art (CA) Texture

Scan to
View Full
Sheets

Woods in CA texture celebrates the renewed desire for a closer connection with nature in everyday living. Inspired by traditional hand-carving techniques, the CA finish introduces a crafted, tactile dimension that elevates the natural beauty of mid- to dark-toned wood grains. With its partial crown - cut pattern, it reveals refined, organic movement - offering depth, warmth, and an artisanal touch.

Stones - Carved Art (CA) and Kleber Line (KL) Textures

Scan to
View Full
Sheets

Stones in Carved Art (CA) and Kleber Line (KL) textures present two distinct interpretations of natural stone, each with unique character. Travertine in Carved Art (CA) exudes a warm, artisanal charm — its natural layers enriched by the hand-carved tactility of the CA finish, lending depth and organic expression. In contrast, off-white stone in Kleber Line (KL) embraces modern minimalism. The KL finish adds subtle linear structure, transforming the stone’s neutral calm into a contemporary, architecturally rhythmic statement.

Stones - Pietra (PT) Texture

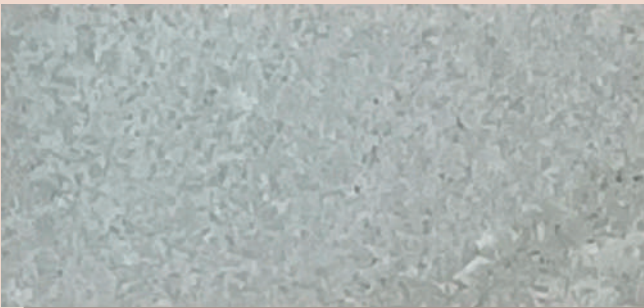

Scan to
View Full
Sheets

Stones in Pietra (PT) texture embody the quiet elegance of naturally inspired surfaces, evoking limestone, plaster, and raw earth. These stones deliver a soft, organic aesthetic, infusing interiors with warmth and tranquility. The Pietra (PT) texture amplifies this natural character — subtle visually yet richly tactile — creating an authentic stone feel. The result is a refined, grounded look, ideal for minimalist, earthy, or contemporary spaces seeking understated sophistication.

***8812CK**
Tinted Paper Terrazzo

***9271JN**
Reclaimed Denim Fiber

Disclaimer:

***8812** Tinted Paper Terrazzo is made from small fragments of Formica's post-production solid color paper to crate a new paper sheet. Hence no one sheet is exactly alike.

***9271** Reclaimed Denim Fiber is real reclaimed denim fiber from cloth production mills, embedded in paper. Hence no one sheet is exactly alike due to the natural paper making process.

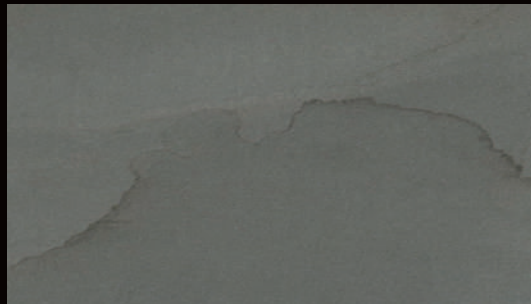

Jean(JN) finish is a typical denim diagonal twill that adds true-to-touch realism, the laminate sheet will have a directional texture.

Pearlescent - Phoebe Remix (PH) Texture

Scan to
View Full
Sheets

Pearlescent in PH texture captures a soft, iridescent glow that moves gently across the surface, creating a natural, dappled play of light. This subtle yet expressive finish evokes the shimmer of fine metallic fabrics. With shifting highlights that add depth and quiet sophistication, PH texture offers a refined, light-responsive surface ideal for interiors seeking a delicate, light-responsive elegance.

Undulating Surfaces
Solid Colours - Duo Wood (DW) Texture

Solids in DW texture transform flat surfaces with depth and movement. The dual – gloss effect gently interacts with light, producing a refined interplay of matte and gloss that adds dimension without pattern. This elevates solid colours, making them feel richer, more architectural, and premium. The result is a sophisticated, textured finish that retains a clean, modern aesthetic — ideal for spaces seeking subtle elegance and visual intrigue.

Custom Graphics

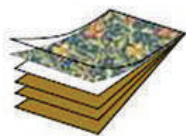

DIGITAL PRINT
Customer-supplied images are printed directly onto plain paper for the production of high-pressure laminate (HPL).

TECHNICAL SPECIFICATIONS

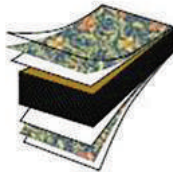

Laminate Size	:	1220 mm (W) × 2440 mm (H) and 1220 mm (W) × 3050 mm (H) Includes a 50 mm border on each side in black core. For images spanning multiple laminate sizes, allow an additional 20 mm bleed for overlap.
Actual Image Size	:	Ready-to-print size should match the panel dimensions: 1200 mm × 2400 mm.
Finish	:	Matte or Gloss.
Postforming	:	Not supported.
Thickness	:	1.0-12 mm. (Compact Grade for 2mm or thicker)

DIGITAL FILE REQUIREMENTS

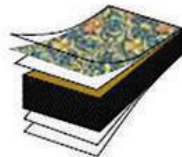

- Minimum resolution: 300 dpi or higher.
- Image size prepared for printing on 1200 x 2400mm panel.
- Provide a colour printout of the file for reference.
- Include Pantone number or equivalent colour codes if applicable.
- Recommended software: Adobe Illustrator or Adobe Photoshop.

About the Group

We are part of the leading global group in surface materials. We are FENIX, Formica, Homapal, Arpa, Westag, Trespa, Hartson-Kennedy and Direct Online Services. All active in material technology.

Panels, doors, worktops: our products range from HPL to solid surface, and from decorative metals to FENIX. Our 6,000 employees work in 40 countries around the world and our products are marketed in many more.

About Formica®

Feel in Every Detail

We design spaces where life unfolds — places to live, work, and play — while shaping a warm future and home for all aspirations.

We take extraordinary care with the spaces you create because we want every detail to touch the heart.

Formica Founding

Formica® was founded in Cincinnati in 1913 Herbert A. Faber and Daniel J. O'Conor. A world leader in high pressure laminate innovation and always associated with decorative surface by architects, designers and consumers.

Our many years of expert experience combined with our commitment to innovation position us to develop products that meet the needs and current market expectations.

Formica's Services

Formica offers a complete range of surface decorative products with Protec+technology (High Pressure Laminate, Formica Compact, Formica Cora, ColorCore, Formica Custom Graphics and FRguard+), premium decorative products (DecoMetal and FENIX) and a range of functional products (CHguard). All Formica High Pressure Laminates conform to European BS EN438 standards. Formica has attained ISO certification 9001: 2015, ISO 14001: 2015, ISO 45001:2018, and GREENGUARD.

Formica owns manufacturing bases worldwide, with five located in Asia. Major bases are located in Shanghai (China), Jiujiang (China), Hsinchu (Taiwan), Bangkok (Thailand) and Ahmedabad (India).

Materialising Sustainability

As part of Broadview Materials Group, we share a common sustainability approach, with a key focus on reducing our carbon footprint. As a global leader in surface materials, we view sustainability not only as a responsibility, but also as an opportunity to innovate and grow.

It means putting into action investments to minimise the environmental impact in all of the operations and products and, consequently, reduce our footprint. This long-term strategy consists of two main pillars: the replacement of the most impactful inputs and the improvement of the efficiency of materials and processes. This commitment is captured in our Group's sustainability mission: Making Real Impact for Less Impact.

GREENGUARD Certification

Formica Group has taken significant steps to ensure that its products promote a healthy indoor air quality in homes, offices, schools and other indoor environments. According to the US Environmental Protection Agency (USEPA), the most effective way to reduce indoor air pollution is to reduce or eliminate harmful chemical emissions.

Formica® takes pride in meeting the strict emissions limits of the GREENGUARD Environmental Institute and in achieving GREENGUARD Certification for Indoor Air Quality for Formica® Laminates. Formica® Laminates, ColorCore®, Compact® and DecoMetal® are certified in Asia according to the GREENGUARD Certification and GREENGUARD Gold Certification standards for Indoor Air Quality. Formica® FRguard®+ is certified with GREENGUARD Certification for Indoor Air Quality.

Singapore Green Label

Formica® Laminates and Formica® Compact® Grade Laminate are Singapore Green Label certified by the Singapore Environment Council under "Environmentally Preferred Surface Covering".

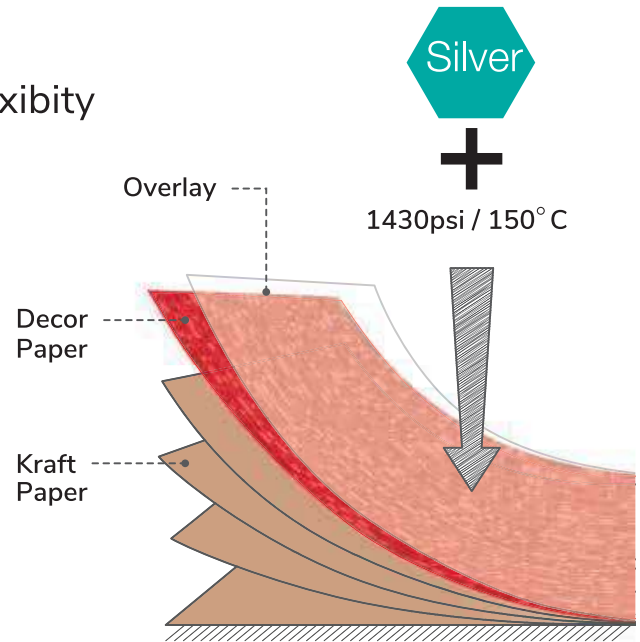

Product Properties

For durability, colour clarity and flexibility

Formica® High Pressure Laminates (HPL) are made from specially selected kraft and printed papers impregnated with thermosetting synthetic resins and fused together under heat and high-pressure in a controlled environment to form single high-density sheets of laminates,

HPL Surfaces

The surface patterns and colours on the laminates are impregnated with melamine-based resins to provide higher resistance against abrasion, shock and impact, heat, and discolouration. Select from our comprehensive range of sheet size and an even wider range of textures and finishes.

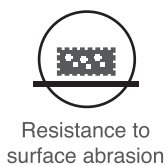

HPL Grades

All Formica® High Pressure Laminates are manufactured to the requirements of EN 438 and ISO 4586 and are available in many grades, each of which with specific properties. The two most commonly applied grades are General Purpose and Post-Forming :

Grade	Performance	Typical Application
General Purpose	• Vertical applications and horizontal applications with moderate wear • General use	• Retail and hospitality furniture • Worktops and counter tops • Doors • Kitchen cabinets • Wardrobes • Office furniture • Interior walls in general transport vehicles
Post-Forming	• Vertical applications and horizontal applications with moderate wear • Can be formed with controlled temperature and bending	Where curved section are required : • Kitchen cabinets doors • Worktops and counter tops • Wall-cladding • Shelves • Partitions

Formica® HPL Properties

Resistance to surface abrasion

Resistance to heat

Resistance to cigarette burn

Antimicrobial
(Antibacterial & Antifungal)

Impact, Wear & Scratch-resistant

Postformability

Other Products

COLORCORE® PROTEC+

ColorCore® PROTEC+ is ideal for use in high traffic areas because of its uniform solid color, offering vast potential for innovative and stylish interiors. Applications such as counters, reception desks and furniture can be enhanced with special inlay effects and sharp edging details.

FORMICA® COMPACT® PROTEC+

Compact® PROTEC+ is a thick and exceptionally strong yet versatile grade of phenolic laminate manufactured through layers of impregnated Kraft paper and facing each side with printed décor. With variable thickness options of up to 25mm, Compact® PROTEC+ is suited for high-impact and high-moisture environments such as restroom partitions, lockers, laboratory furniture, wall linings and counters or table tops.

CUSTOM GRAPHICS™ PROTEC+

Imagine the possibilities of creating a surface to call your own. Design your unique surface art on our high-performance laminate using your design, photograph, logo, illustration or painting. If you can imagine it, we can make it.

HOMAPAL

Go beyond the decorative. Experience the stunning flexibility of laminates with real metal surfaces. Homapal delivers lustrous color and sheen with textures reflecting energy, modernity and a deep respect for craftsmanship. Ideal for light-duty horizontal or vertical applications: walls, furniture, retail fixtures, signage, exhibits and displays.

Other Products

MAGNETIC LAMINATE

A decorative laminate ideal for communication and display, Formica® Magnetic Laminates have a strong magnetic effect and can be written on with chalks or special markers board. It is suitable for a wide variety of applications in environments.

CHGUARD®

Formica® CHguard® is packed with a new formula that surpasses industrial benchmarks, to provide supreme performance for critical applications demanding high levels of chemical and stain resistance.

FENIX®

Discover FENIX®, the innovative material for interior design created by Arpa Industriale for a range of vertical and horizontal interior design applications: kitchens, hospitality, healthcare, transportation, bathrooms and furniture. With low light reflectivity, the FENIX® surface is extremely opaque, soft touch and anti-fingerprint. Thermal healing of superficial micro-scratches is also possible.

FORMICA® CABINET DOOR COLLECTION

Eliminate uneven edges and welcome a standard of beauty and consistency. Our cabinet doors are produced in-house, allowing us to maintain strict quality control at every stage. With our advanced edgebanding machine, we ensure a flawless, professional finish that enhances the overall look of your cabinetry.

Other Products

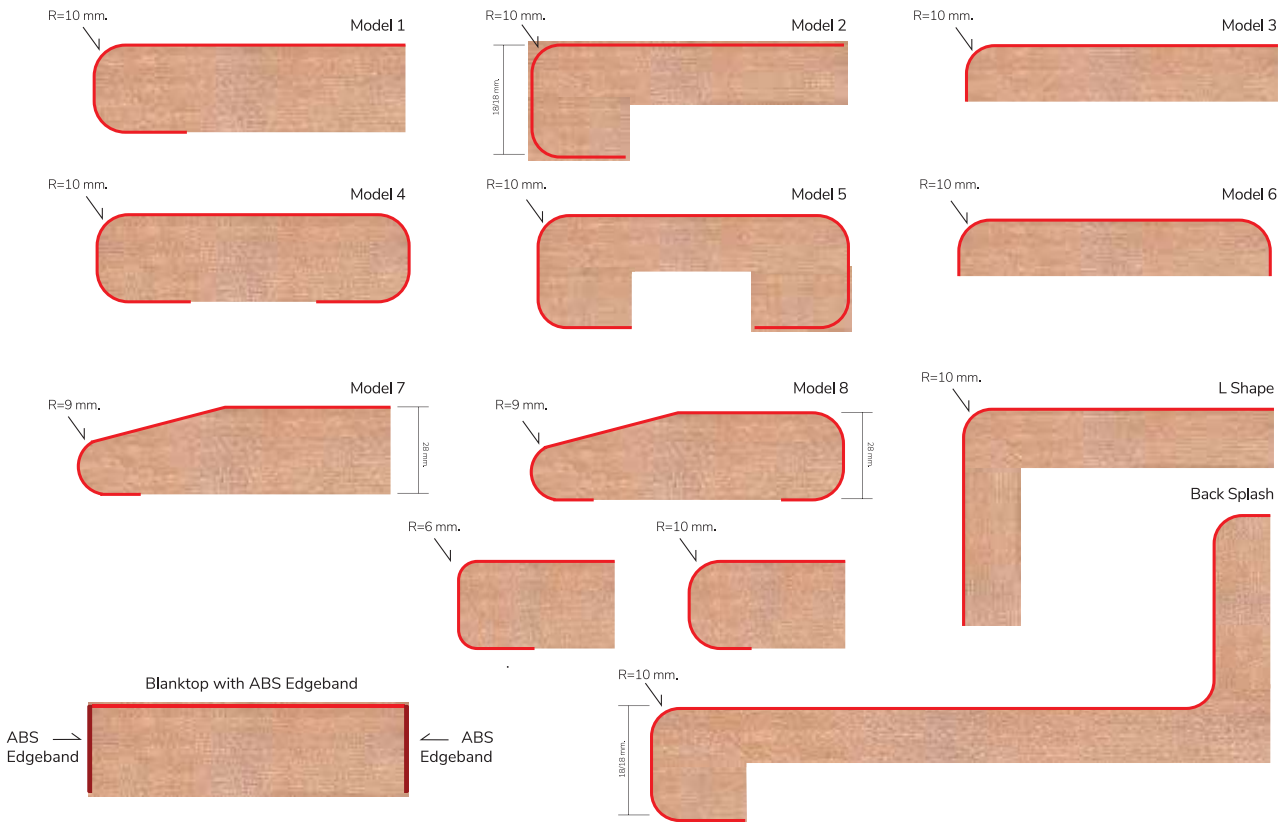

FORMICA® DOOR COLLECTION

Formica® Door Collection is crafted with durable materials for long-lasting performance. The door panels are finished with Formica® Laminate, offering a wide range of colors, patterns, and textures to suit any interior design. They are easy to maintain and ideal for high-traffic areas.

FORMICA® WORKTOP COLLECTION

Formica® Worktop Collection offers a wide range of worktops, breakfast bars, and islands in various thicknesses, edge options and profiles. Worktop surface is finished with Formica® Laminate, providing antimicrobial, wear, scratch, and stain resistance, and is bonded to particle board, MDF, or HMR for enhanced moisture resistance.
